

Information Brochure

Look out for our new Bolster Plus features

What we do

Accurate, Accessible, Secure

Bolster Systems provides documentation software for construction professionals to record information through mobile and desktop apps.

Save time on-site and in the office by digitally recording the information needed to keep your sites safe.

Upload your floor plans and drop pins to; locate, manage and document any work.

Our dedicated team will help you build the perfect templates to ensure your operatives don't miss any details.

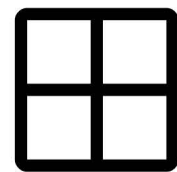

Record Information for:

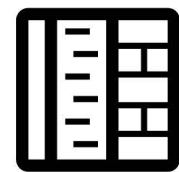

Fire Stopping

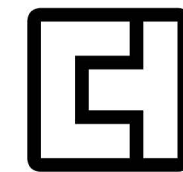

Fire Doors

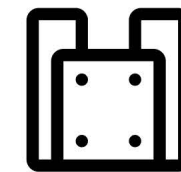

Windows

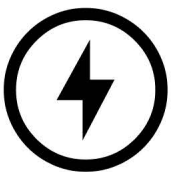

Externals

Joinery

Internals

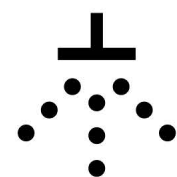

Electrical

Water

Health & Safety

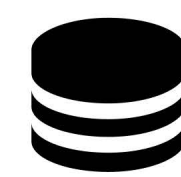

Active Fire
Systems

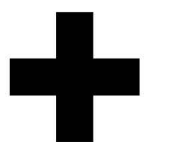

Fire Dampers /
Risers

Project
Management

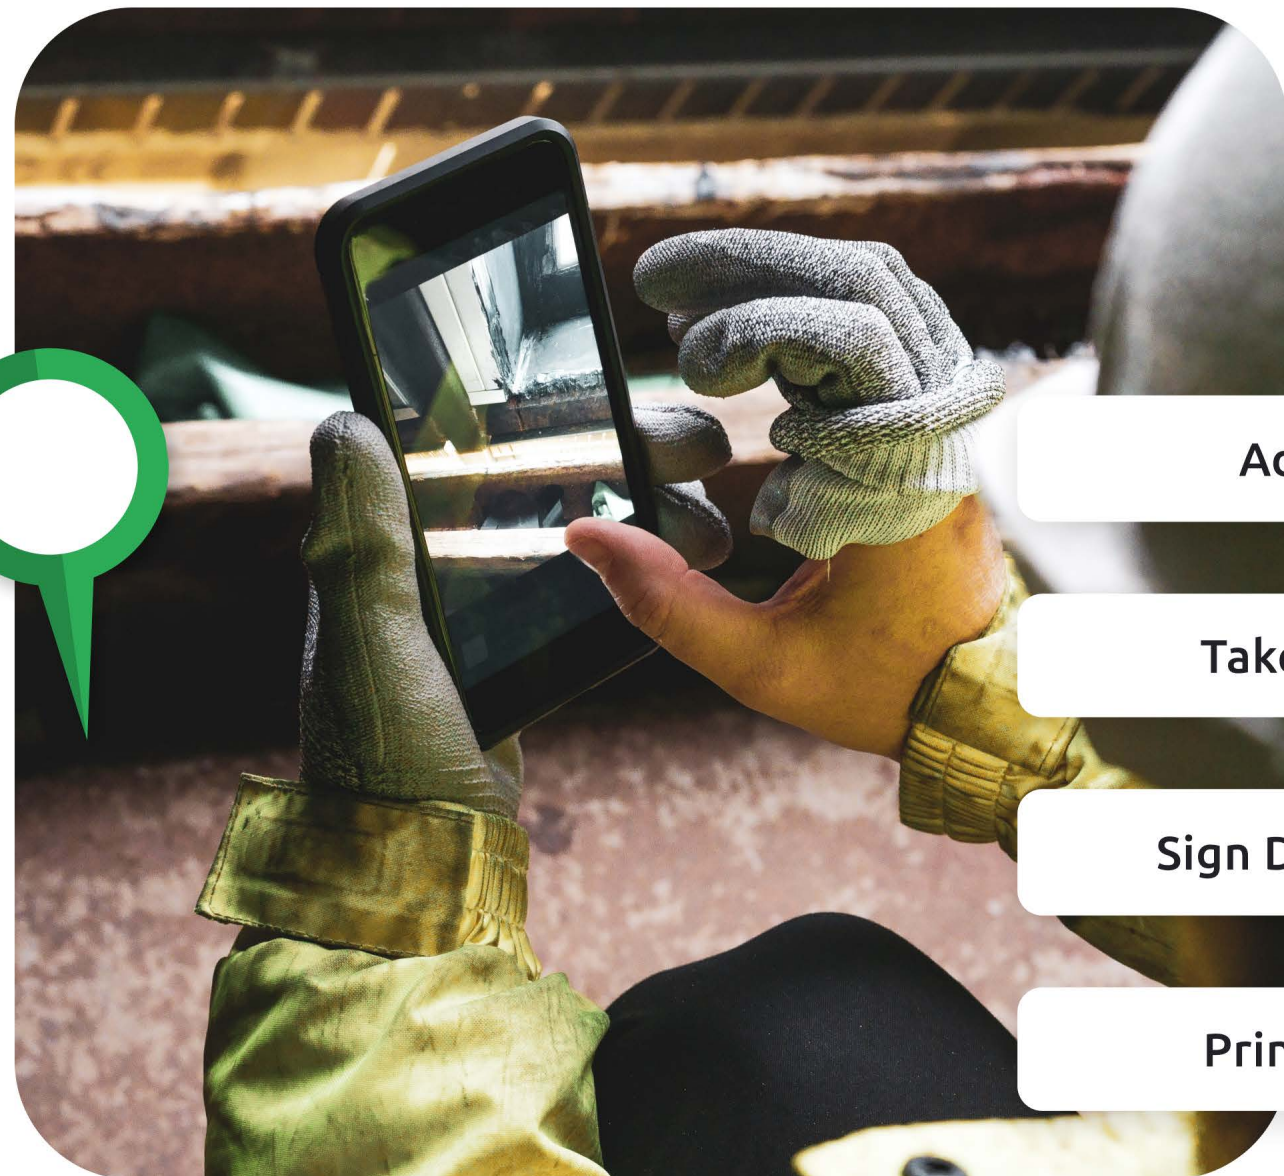

Asset
Management

Much More

Compliance Documentation, Made Simple

Bolster Systems is a multi-platform tool that makes recording information on-site easy and efficient, reducing endless paperwork and helping you manage more projects.

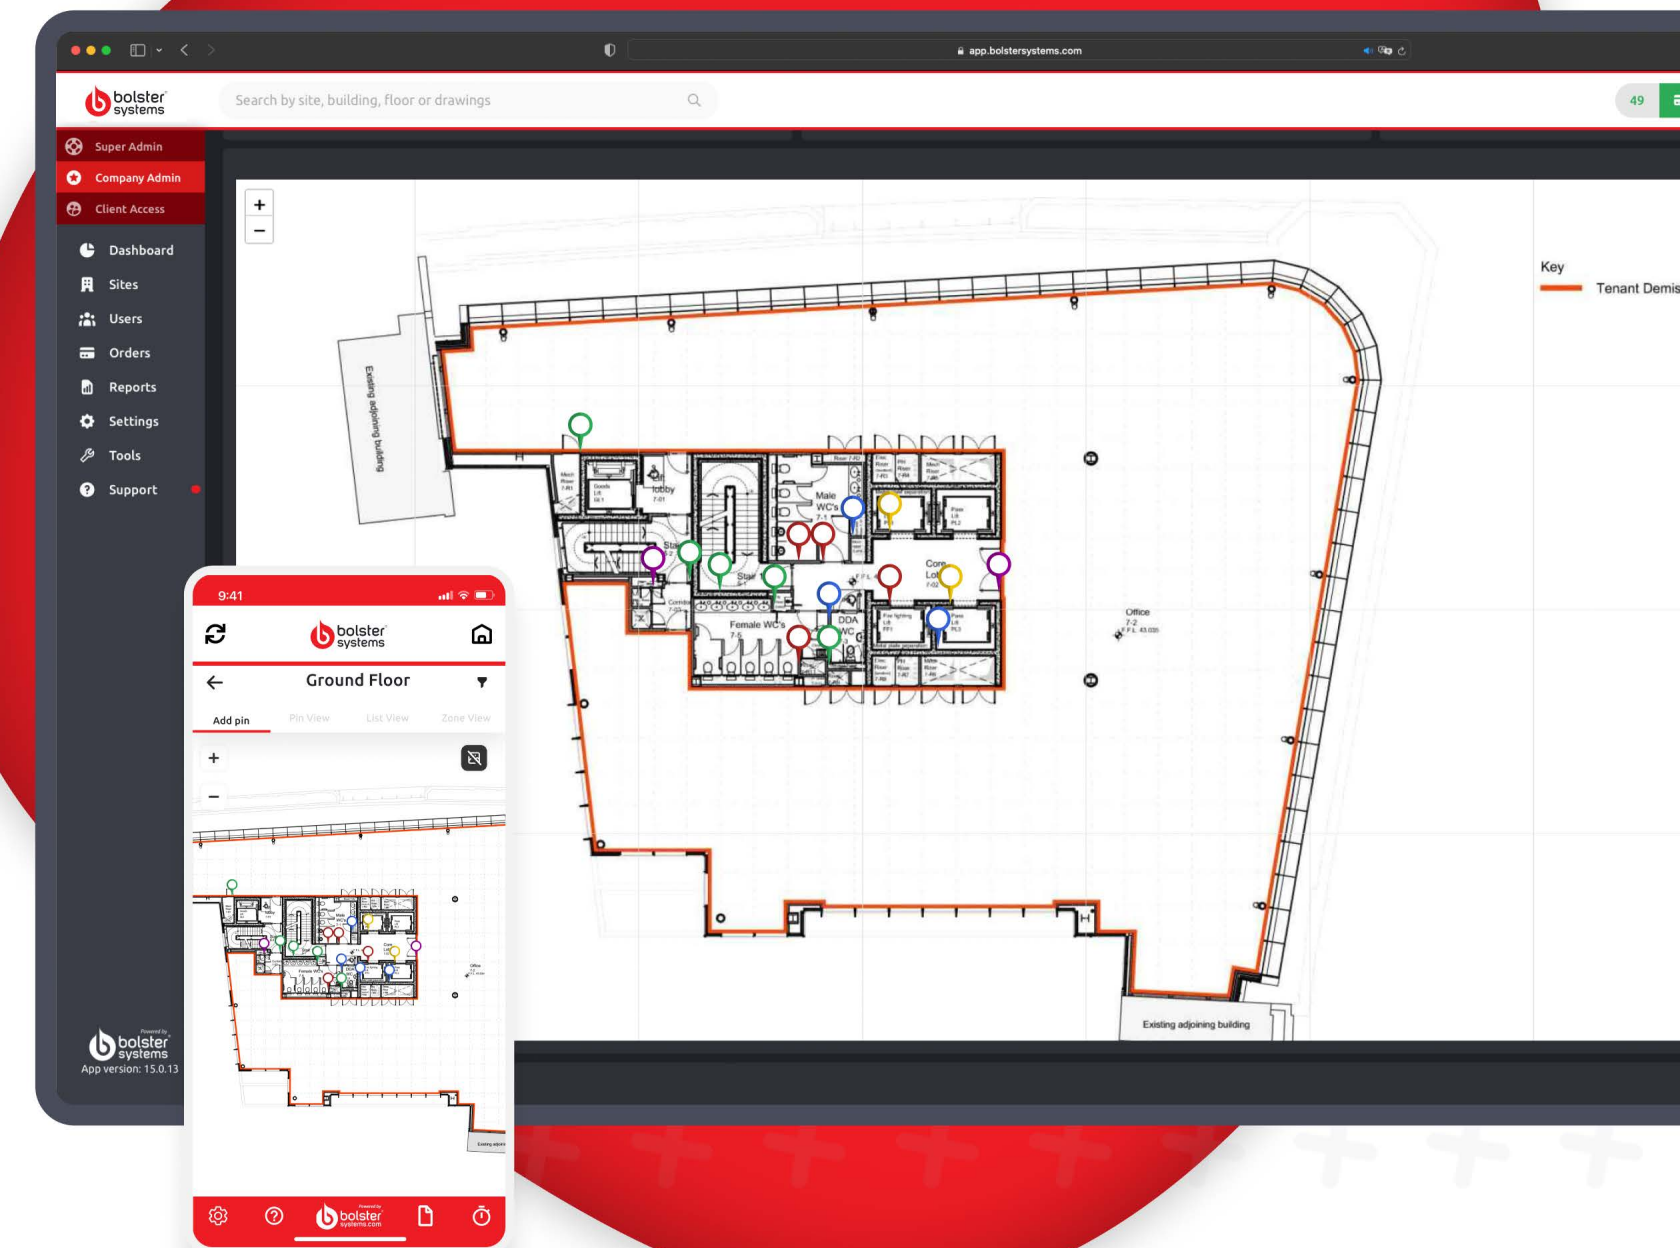

Add Pins

Take Photos

Sign Documents

Print Labels

Record Information in a Structured Digital Format

Keep all information for your projects in one place. Upload your drawings and other necessary documentation to our secure desktop site.

App users can access these drawings and record data by dropping colour-coded pins.

Timesheets

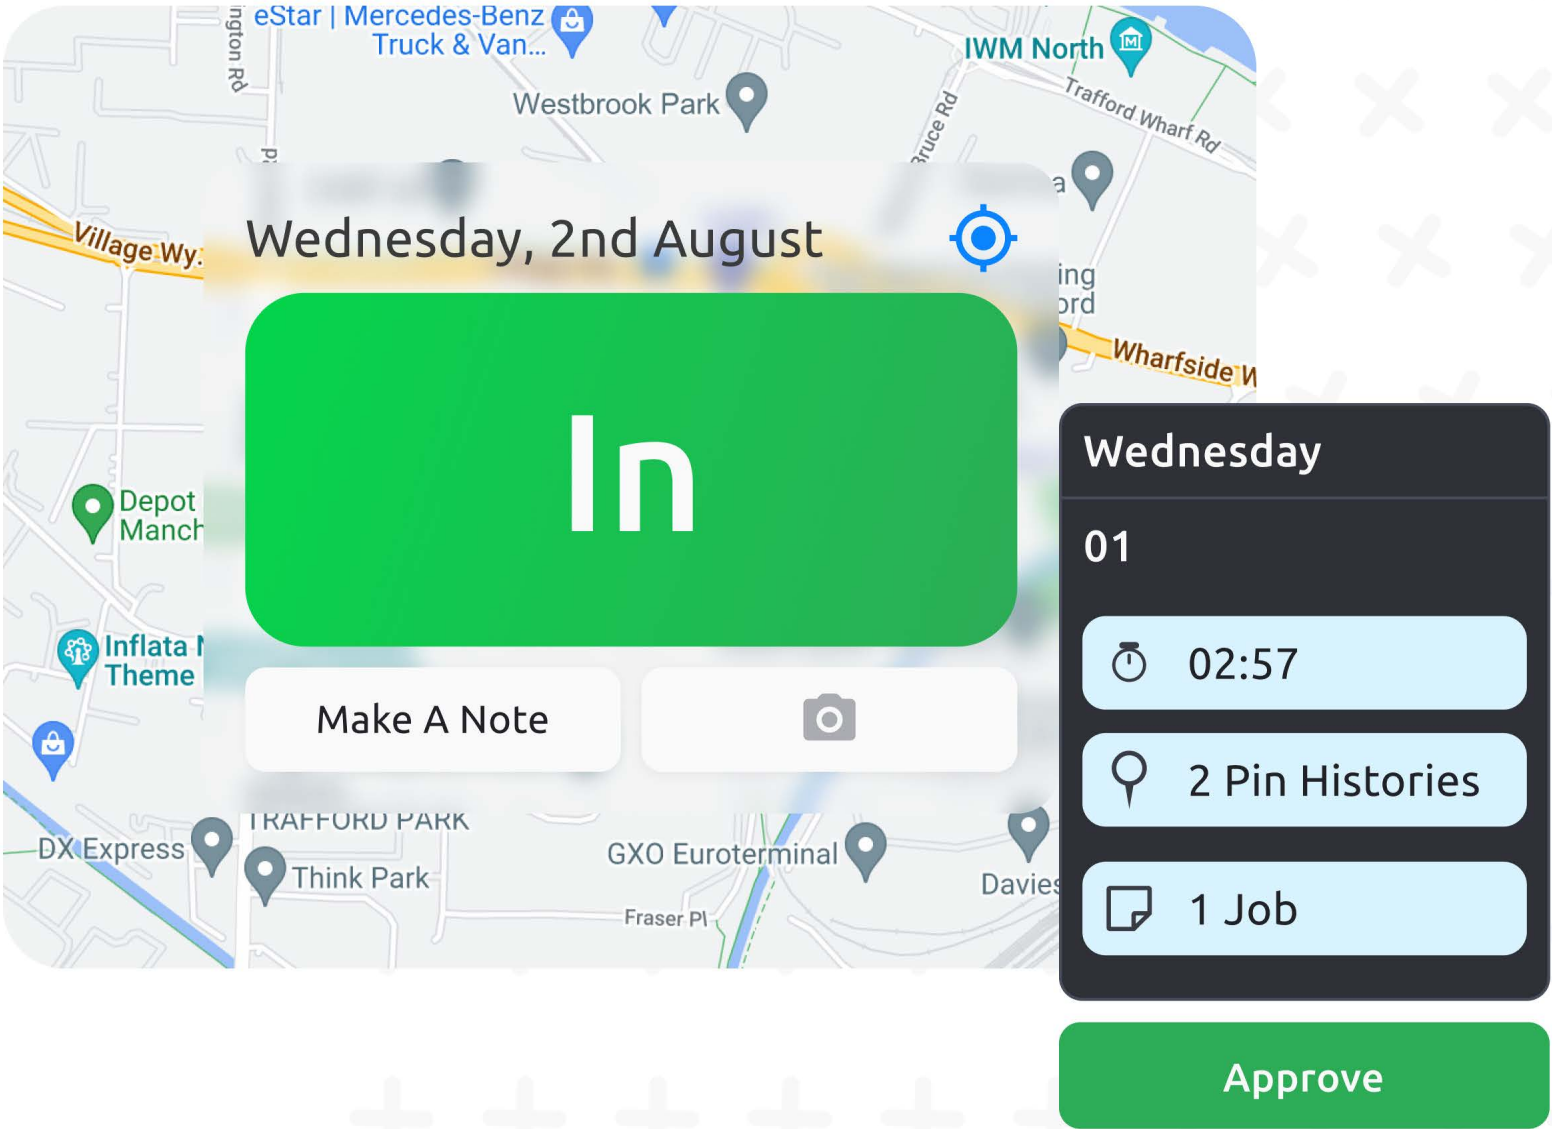

Real-time Visibility of Hours on Site

Employees manage their hours at work using our timesheets feature.

Reduce the need for back and forth communication between office and site-based staff to chase up hours and eliminate mistakes in the process.

Bolster plus takes this one step further by being able to assign a wage to employees to automate account keeping

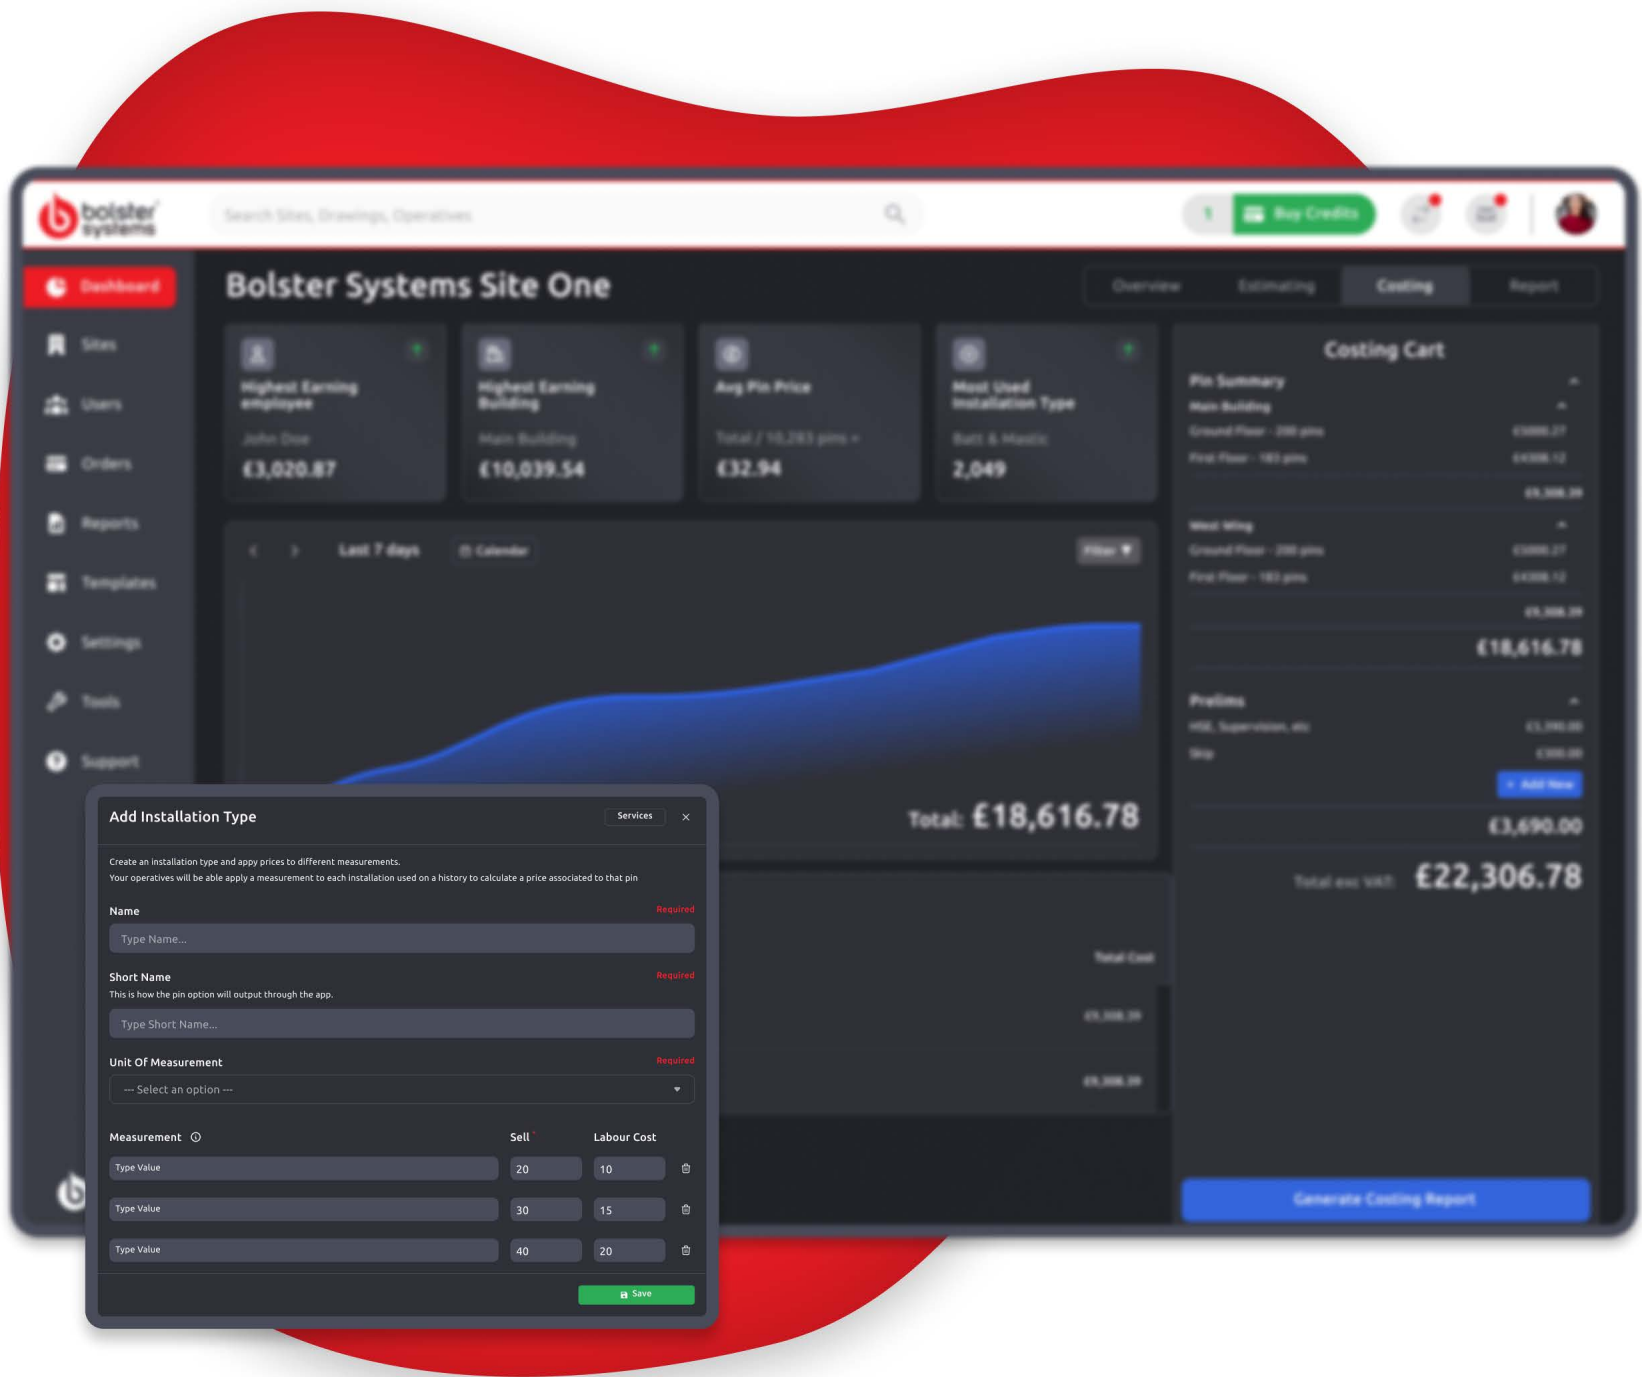

Costing & Estimating

Automated & Scalable Pricing of Recorded Work

Costing & Estimating saves time and streamlines your office resources.

Watch projects cost or estimate themselves as your operatives drop pins and record information.

Save your team valuable time before, during, and after a project. Make sure you are paid right, and on time.

Complete Compatability. Reduce Paper, Save Time

View recorded information from your browser or generate reports of specific data in PDF or CSV formats.

Bolster Systems works with your current software, allowing you to; share, edit and view your reports in a way that suits you.

Stop wasting precious time collecting, formatting, and editing reports together. Bolster Systems does all this at the click of a button.

Unique Identification or Compliance

Locate and manage your work on-site with easily identified labels.

Bolster Systems works with the portable Zebra ZQ620 printer to provide clear labels of pin data as you work. Reduce the time of handwriting labels and reduce missing any information.

Generate QR codes and assign them to pin histories, making work easily identifiable and ensuring a single source of truth.

Pricing

Subscription

£1250 /year

Your subscription to Bolster Systems will provide you with your first service (e.g. Fire Stopping). Additional services are 50% of the original subscription at £625, calculated pro-rata.

Included:

- ✓ Pin Tasks
- ✓ Timesheets
- ✓ Zone View
- ✓ Unlimited Pins
- ✓ 999 Users (App & Desktop)
- ✓ Cloud File Storage

Drawing Credits

£150 each

Drawing credits are the foundation of Bolster Systems and are required to drop your pins and record information.

Credits are purchased and used to upload drawings. Drawings have a lifespan of 12 months before they expire and need to be re-credited.

With your subscription to Bolster Systems, you will be able to work on another subscriber's drawings for free.

You cannot record data using Bolster Systems without access to a drawing.

Essential

Recommended
