App

Operatives can record their time straight from the Bolster Systems app, with no additional software needed.

Simply tap the '⌚' in the new taskbar.

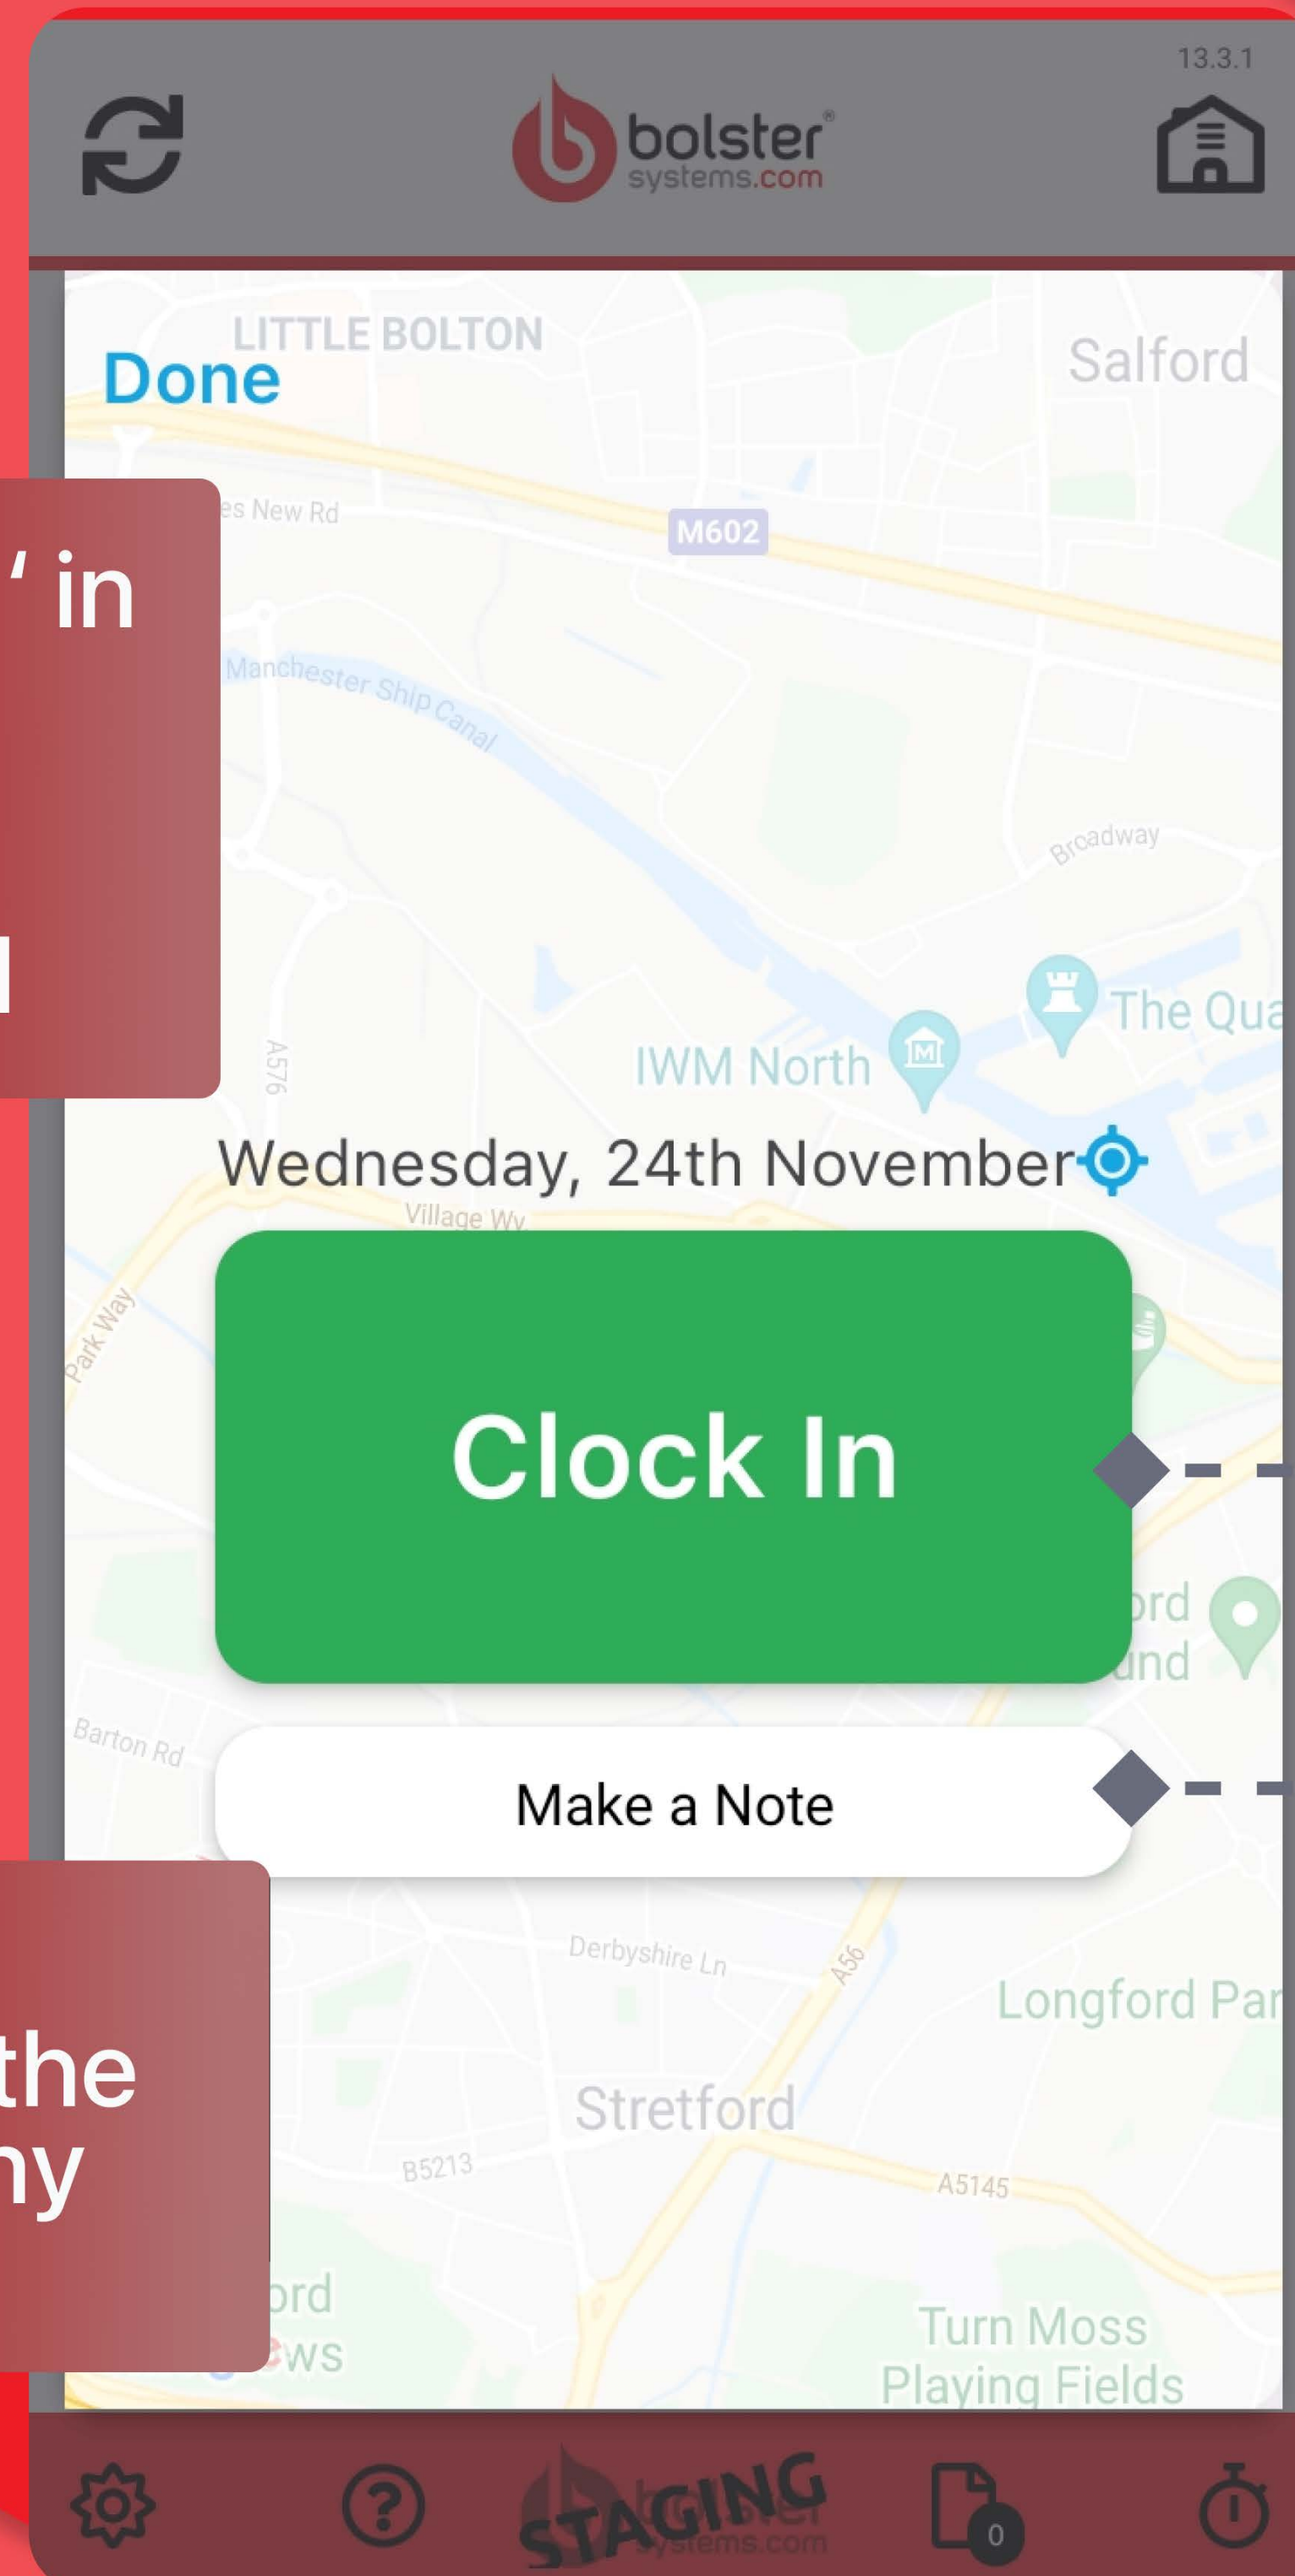

This will open the Timesheets modal

This modal can be opened anywhere in the app, without losing any progress.

Tap 'Clock In' to start recording your time at work.

The location at the time of clocking in will be recorded.

Make notes for your admins to view, this includes the ability to take pictures

Location

Switch between your overview and a detailed record of your operatives location.

A users location is recorded via GPS everytime they clock in, go on and off their break and finally when they clock out.

This information is displayed in a handy timeline
