

Introducing 'Bolster Plus'

Highlights

'Bolster plus' is a package of new features designed to help your business be as efficient as possible on-site but in the office too.

The new range of automated and scalable solutions integrates the Bolster System across your team.

- ✓ Costing & Estimating (price sites automatically from your schedule of rates)
- ✓ Timesheets + (export timesheet CSVs, set wages for operatives)
- ✓ 25 GB Document Library
- ✓ Further user management control
- ✓ Push Notifications
- ✓ Additional training

What's included?

Costing & Estimating

Automated & Scalable Costing & Estimating Of Recorded Work

Costing & Estimating saves time and helps you streamline your office resources.

Create your schedule of rates within Bolster Systems by linking costs to installation types.

Create installation types for specific sites or clients and adjust prices using the quick price edit feature.

Generate project costings and estimates instantly.

- ✓ Optimisation of your installation types
- ✓ Split pricing between sell rates and labour rates
- ✓ Scaleable solution for costing and estimating
- ✓ Set rates to your installation types by measurements
- ✓ Operatives can input specific sizes for installation types
- ✓ Sites are priced automatically as pin histories are created

What's included?

Timesheets plus Automated Solutions For Wages And Timesheets

Timesheets plus is a hub for organising your workforce.

The latest update allows you to; create specific job references to see the hours billable to each job.

Apply hourly wages and working hours to your operatives; approve/reject timesheets entries and edit ready for exporting as a CSV.

- ✓ Create wages for employees
- ✓ Set regular working hours
- ✓ Automatically calculate pay for operatives
- ✓ Approve & edit timesheet entries
- ✓ Export entries to CSV
- ✓ Manage employee expenses

What's included?

Increased company documents storage

Companies with Bolster Systems Plus will have increased company document storage of 25GB. Ensure all project paperwork and documentation are uploaded to our cloud-based digital platform, making it accessible anytime on-site.

Further User Management Control

Assign 'admin plus' users who can maximise the benefits of using Bolster Plus

Push Notifications

Improve communication between office and site through the use of push notifications to your Bolster app users

Additional Training

Alongside the regular open access Teams training calls, we will offer your company a training call to ensure all users understand the functionality of our system.

Training will cover all features across both the desktop and application.
